

## **Training Activity of B.Pharm. Students (In the Year 2020) for Practical Exposure To Industry**

Our institute gives immense importance for industrial training for every B.Pharm. students keeping in mind their enrichment of technical knowledge so that they can get sufficient exposure to industry. This will help develop their technical knowledge to interact with the industrial authority at the time future placement.

The training will serve the dual purpose for grooming the students as well as for getting approval from pharmacy council of India as registered pharmacist.

BCPSR TPO cell under the Leadership of Dr. MithunBhowmick, Principal, BCPSR make necessary arrangement of industrial training for students in different pharmaceutical industries. The students were sent to the Pharmaceutical Industries in the following places such as:

Kolkata (West Bengal), Hyderabad (Telengana), Sikim, Baddi, Solan (Himachal Pradesh), Haridwar (Uttarakhand).
